The KIP Universitas Programme has just published the latest issue of *Universitas Forum*, addressing social protection from the more general perspective of human security. *Universitas Forum* uses open-source software and all the articles can be downloaded and viewed free of charge. Article abstracts can be viewed in any of the journal’s four languages: English, French, Italian and Spanish.

Full texts of articles are published in the original language only. To view them, choose the corresponding language in the language menu to the right.
